But the serial key for the professional debut video capture software version can be easily obtained off the web. There are websites that offer the full working serial key generator and the keygen program for obtaining valid serial keys for easy activation of this program. And all of this for free or a very little cost, defiantly cheaper than the original cost of the software. A word of caution here, few keygens/bulk license key generators are considered safe havens for a range of spywares, malwares and bots. These can not only infect your computer but also reveal your identity to spammers or rogues who can invariably misuse these information. Thus download only verified keygens.
