In addition, after entering the multiplayer, the player has to play several practice rounds during which the game judges his skill and throws him in one of the five leagues (Bronze, Silver, **Gold**, Platinum and Diamond) and activates the match-making feature. Here, or in custom games, he can **fight** against up to eight players on 61 maps, some of which are specially made beginner's versions of other maps to prevent early rushes. The maps are divided into several categories based on type of gameplay, like coop, simple free-for-all or team matches, and the amount of players; eight being the largest number of players a map can hold. Bots are available to fill up open slots and additional achievements are waiting to be earned in order to unlock new **avatar** pictures or troop banners.
