Following up what is considered in some circles to be the best album of the decade with an album that is considered in perhaps one or two fewer circles to be the best album of the decade is a rare accomplishment. Conventional wisdom dictates that the bottom has to fall out sometime, but conventional wisdom usually doesn't have to contend with bands like Arcade Fire or albums like Neon Bible, for which, really, the most serious concern is that it lacks the grand thematic coherence and self-mythology of a debut that's damn near structurally perfect. But the perfect is the enemy of the good.

SPIN The Reissue Section: Winter 2021 Comments Feed

On songs like "Money Maker" and the brilliant lead single, "Lonely Boy," Danger Mouse leans heavily on the rhythm half of the R&B influences in the Black Keys' songwriting. Both the diamond-cut precision and the prominence of the rhythm sections in the mixes of "Gold on the Ceiling" and "Hell of a Season" owe as much to

modern hip-hop as to the vintage R&B that ran through earlier Black Keys albums, and it's that distinction that makes *El Camino* sound fresh and contemporary. But for the Led Zeppelin homage of "Little Black Submarines," the album impresses for looking to the present for inspiration rather than settling for a simple, retro-minded genre pastiche.

El Camino: Amazon.co.uk: Music

It was just dope to be able to get to do that sort of period piece. Anything where I'm really able to sink my teeth into as an actor is welcome. I love any opportunity to do something, period, but anything where I'm not a musician — any opportunity to display a different dimension of my personal character, is welcome.

Though it comes from "El Camino," "Money Maker" echoes the darkness of their other albums

I know you guys have played with so many people over the years now, but do moments like that stand out? Are there other artists where it's been daunting?

STEREOGUM: Is that how you got the acting bug? Or this was always something you were interested in?

Music's Top 40 Money Makers

BLACK THOUGHT: It was very much like being swept up, stepping into the '70s. I remember the '70s, I was born in 1973. The Deuce takes place around that era. I've always had a romantic — you know, I romanticize the pimps and hoes and gangstas, that's what I grew up around and that's what I was exposed to at a young age. My first impression of New York would be trips where we would just drive up to New York and not even get out of the vehicle. We'd drive up, come out of the tunnel, drive down 42nd Street and look at all the pimps and gangstas and absorb the streets and sights and sounds and smells, then get back in the tunnel and drive back to Philly.

Finnish cello rockers APOCALYPTICA have released the official music video for their collaboration with PAPA ROACH singer Jacoby Shaddix on a cover version of the CREAM classic "White Room". The track was produced by Howard Benson at West Valley Recording Studios in Woodland Hills, California and mixed by Chris Lorde-Alge. Says APOCALYPTICA: "We were really.

It would've made my Top 10 back when I first heard it in 2005, but this year's competition is tougher, so Junior Senior's Hey Hey My My Yo Yo doesn't rank quite as high. The album has lost none of its punch in the two years since its initial release, and any album that tells a sasquatch to get down and has the beats to make him actually want to while deftly avoiding camp affectations is doing something right.

STEREOGUM: This is another music thing, but you're not playing a rapper. The other thing, obviously, is Chadwick Boseman was in the lead role.

It's well-documented recording "Amorica" was a mess. While there were piles of drugs present during the sessions, (perhaps not coincidentally) there weren't as many songwriting homeruns as before. The music on "Gone" and "A Conspiracy" is interesting, but the lyrics have lost a step. I've owned a copy of "Amorica" since the first day it came out and listened to it probably a thousand times, but never been able to make it through off-brand shuffle "P. 25 London" without fast-forwarding. Hustler-sourced cover art (presented here in "censored" version sold at some big-box retailers) often overshadowed the music inside - at least in mainstream pop-culture.

The 88-date tour earned Madonna an estimated \$32 million in 2021. The globetrotting tour also supported her MDNA album, which debuted at No. 1 on the Billboard 200 and generated \$1/5 million in physical and digital album sales for the artist.

The mythology concocted for the Pierces—a tale of kidnappings, gypsy dance troupes, narrow escapes, business suit-clad villains, and a knight in shining armor—would make for a fancy Tim Burton movie. *Thirteen Tales of Love and Revenge* is the sound of a pair of sisters who have been exposed to a wide spectrum of musical styles and cultures—gypsy music, if you will. From pulsing new wave/disco to subtle country twang, it's a sound that fits perfectly within the booming indie template of 2007.

Throughout, *Black Thought* — the man born Tariq Trotter — was at the helm, steadily proving himself as one of the great MCs, an all-time master of the art form. He hasn't always entirely gotten the credit he was due, perhaps as the Roots themselves were somewhat taken for granted even at the height of their creativity and output. It's weird to think of it this way considering these guys are on TV all the time, but it feels as if *Black Thought* has gone through something of a resurgence in recent years. In the last couple years, he made waves on the internet with a now-iconic freestyle and then embarked on a series of solo projects called *Streams Of Thought*, in which he joins a single producer for an EP-length collection.

BLACK THOUGHT: Kanye was very much the kid who would hang out in the studio. I would always tell people I would arrive at the studio for a session — and I'm never late, so I would always be on time or early — and I would get there and Kanye would already be there in my session.

STEREOGUM: You've acted a bit through the years. I really loved *The Deuce*, which was a show in which you kind of got to dig into a character for a longer period of time, in this period piece. What was your experience like on that set?

His My Kinda Party tour was No. 13 on -Billboard's list of 2021's top 25 tours with a gross of nearly \$40 million and attendance of 984,000 to 59 shows - all of them sellouts. With 73/3% of Aldean's revenue coming from touring, only Justin Bieber (at 60/1%) had a smaller share among the top 10 Moneymakers. Aldean's Night Train sold more than 1 million units in 2021 to become the fifth-best-selling album the year. My Kinda Party (2021) sold another 594,000 units and ranked No. 29 for the year.

The Fourth, which opens with a heat and vexation that is almost Soviet in its belligerence, dates from the build-up to the Second World War; the Sixth, written between 1944 and 1947, harnesses the ruinous tragedy that resulted, but with an aching, questioning Epilogue that vacillates between sorrow and quiet optimism. Pappano - who succeeds Sir Simon Rattle as LSO chief conductor in 2021 - finds both uniqueness and commonality in these pieces. The Fourth is crushingly foreboding, the austere intensity of its textures coupled with moments that ooze humanity and passion. The Sixth is no less acute, its severity nonetheless softened at times with hints of humour, albeit ironic. Pappano is never a slave to the Englishness within the symphonies, motivated more by their universal messages.

What's more, he upped the ante in 2021 by adding fellow superstar Tim McGraw to the marquee, a move that no doubt cost plenty but paid off at the box office, as the Brothers of the Sun trek grossed nearly \$100 million and kept Chesney's eight-tour streak of drawing more than a million fans right on course. Off the road, Chesney remains a chart-topping recording artist, releasing Welcome to the Fishbowl in 2021 and producing non-tour revenue estimated at nearly \$3 million. Chesney's bank account (valued at nearly \$12 million) is enhanced by sales of 64,142 ringtones and downloads of 4/6 million digital tracks in the United States, both of which dispel the notion that country fans are digitally challenged. Not included in these figures are other significant revenue streams from merchandise sales and such sponsors as Corona.

For a woman who released her first album a whole quarter of a century ago, Tracey Thorn sure sounds attuned to teen angst on Out of the Woods. Fans hoping for a reprisal of the popular house remix of Everything But the Girl's "Missing" may be disappointed, but just as Thorn authentically portrays the voice of more than one generation, Out of the Woods likewise manages to seamlessly transition between understated chamber-pop and more hip, club-friendly fare.

When Brian Eno crafted Music For Films in 1978, he created soundtracks for movies that only existed in his imagination. But for the last 50-plus years, he's made music for actual movies as well, starting with Malcolm Le Grice's auteur short Berlin Horse.

But lead single "Lickin'" sounds like a malfunctioning dot-matrix printer. **Black** Crowes may not have ever gotten noticed back in 1990 if not for Chris Robinson's soaring pipes and magnetic stage presence. But later, on the band's lesser works, his lyrics or vocals are almost always the weak link. In Chris' defense, the same can be said of many other rock bands.

Taken from The National's excellent Boxer, the moody "Mistaken For Strangers" is driven by Bryan Devendorf's relentless snare-work and vocalist Matt Berninger's Nebraska-aping. If you like your Mellencamp spiked with a little Bauhaus, "Strangers" is your man.

On any day I had to work, I had to travel the night before. I'd do The Tonight Show, then go to Newark Airport and fly down to New Orleans, and then take a three hour drive from New Orleans to Natchez, Mississippi, where we were shooting. We would film in Natchez and sometimes we would stay at old hotels or former slave plantations. Those parts of Mississippi, they're not easy to get to. They're out of the way.

Shake Your Money Maker would eventually sell over three million copies

With the massive success of their second-consecutive platinum album, “El Camino,” The Black Keys continue their march toward world domination. I’ll confess that The Camino (as Stephen Colbert calls it) isn’t exactly on steady rotation in my car’s CD player. But that doesn’t mean I can’t appreciate its many pleasures. Even a tune like Gold on the Ceiling, which clearly wasn’t built to win over baby-boom cynics like me, has something I can latch on to – a snaky guitar intro that would make Jeff Beck proud. And Money Maker is one of those high-octane numbers you should never listen to when you’re driving through a little shitball speed-trap town. I had a hard time picking a song to feature from this album. Ultimately, I decided to give a nod to co-producer Burton, who deserves much of the credit for the Keys’ rise to the top. Dead and Gone is totally unlike anything the band recorded for the first two albums – and that’s exactly the way it should be. You could argue that it’s pure pop confection, but I think it’s the perfect example of everything that’s good and right about the Keys-Mouse collaboration.

I’ve been in that same situation, so I completely understood, there was no love lost on that Benny record — which was, you know, a legendary **album**. It made perfect sense for him to jump on that record, which is why I jumped on that Benny record.

Even when we were touring, we would spend stage time together, but not days on end in a room coming up with ideas and recording them and playing stuff. There was a different sort of muscle memory being created as a unit that made us a better band, better musicians, better songwriters. Being able to interact with other artists who were on a comparable level creatively — because, I mean, they’re here on The Tonight Show. Which, for all intents and purposes, has always been a gate. The Tonight Show has made or broken many a musician or performer.

I’m a huge James Brown fan, and me and Questlove have always been. So many times you see people do the biopic and you wish they hadn’t told the story. This was like, they were doing it the right way, they were shooting in the real places. Chadwick Boseman, he had already emerged as our go-to actor for the Black biopic. He had already proven himself to be a tour-de-force in that way. It was a no-brainer, man, I was really excited.

Vincent’s Marry Me includes songs influenced by an Extraordinary Machine-like array of traditional genres, but it’s Annie Clark’s timely lyrical ideas—about war and revolution, love, fear, and faith—that linger long after the disc has ended, and her understanding of philosophy is just as well-versed as her musical prowess. Clark takes the biblical and literary parables that have been long engrained in our culture and regards them through her unique and distinctly modern perspective. Marry Me isn’t quite a religious experience, but it’s unequivocally divine.

The Deuce was one of my favorite experiences as an actor and I feel like some of my best work. The company I was able to share, so many brilliant actors who sort of validated my performance. You know, The Deuce begins with me, my performance. I felt like that spoke volumes too.
