Now This tool will enable USB debugging in FRP locked mobile automatically. Once you see the “USB debugging Enable pop-up box” on your phone screen, click on the “Allow” button.

This would be a good thing for any web developer. We are thinking of selling the site/domain name sometime when it will be very profitable for us, probably around 2021.

Facebook Password Sniper - [JUNE

Should be used for educational purposes only! We don't recommend using this tool for privacy invasion.

Facebook Password Sniper now has a more updated version in 2021 with the new success rate of 96%

With Cocospy, you can check other social activities apps on your kid's phones. This monitoring app gives you access to the data of several social media apps including Messenger, Tumblr, Skype, *Facebook* and others. The keylogger feature is useful to get all passwords and other credentials to these accounts. You're provided with a log of all keystrokes as they happened on the target phone. The app provides a no root monitoring solution for your kid's cell phone. Similarly, it offers a no jailbreak iOS solution to fulfill the needs of hacking Snapchat on iOS devices. The Cocospy iOS version is web-based, so there is no need to install the app on the target iOS device. All you need is the iCloud credential and you're good to go. The app works in stealth mode on Android devices so your child will not know that he/she is being monitored.
