Every time I review the latest version of PowerDVD, it stays installed when the review is over

Now it is time to run try to copy the protected disc, one more time, while AnyDVD HD is active in the background, to remove the copy protection. You can use any disc burning application you prefer. If you need some good suggestions, read this article: [How to Copy a Disc \(CD, DVD or Blu-Ray\) in Windows](#).

Lenovo powerdvd 12 reinstall

The player runs effortlessly without monopolizing your computer's CPU capacity, averaging just 20 percent. Although, it should be noted that program that is lightest on your system resources is Leawo Blu-ray Player at just four percent on our test PC.

The short answer is No. The copy I made is intended as a personal backup, to use once my old disc no longer works well. I do not plan to sell it, give it to other people or share it online.

Since the player software has Dolby and DTS support, you can enjoy high-quality audio along with your video. It also has bit-perfect lossless audio playback, allowing you to use good quality headphones for private viewing or to connect to an external screen via HDMI cable without having to deal with degraded sound.

Beware though, there are countries (such as the United Kingdom) where even personal backup copies are considered illegal. To learn more about the subject, read the entire Wikipedia entry recommended above.
